

COVID Protocols

In an effort to consider all the situations that a Reality Tour site may encounter a **COVID Toolkit** has been prepared to offer modifications and precautions in a variety of circumstance.

The COVID Toolkit is offered *out of an abundance of caution*. Reality Tours can only be held when a region is 'open or 'green'. We anticipate that certain measures may need to be introduced so that volunteers and attendees can feel comfortable. These measures are not a means to circumvent quarantine advisements, conditions or mandates. All Reality Tours must add the Hold Harmless clause to registration.

COVID Toolkit - Guide to navigating Reality Tour presentations safely using a variety of measures.

Toolkit Table of Contents

1. Tour Director/Licensee Advisory
